Re:	IEEE 802.16-01/08 ["Call for Interest: Amendments to IEEE 802.16.2 (Recommended Practice for Coexistence of Fixed Broadband Wireless Access Systems)"]	
Abstract	N/A	
Purpose	To prepare for Session #12	
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.	
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate text contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.	
Patent Policy and Procedures	<p>The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures (Version 1.0) <http://ieee802.org/16/ipr/patents/policy.html>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, if there is technical justification in the opinion of the standards-developing committee and provided the IEEE receives assurance from the patent holder that it will license applicants under reasonable terms and conditions for the purpose of implementing the standard."</p> <p>Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <mailto:r.b.marks@ieee.org> as early as possible, in written or electronic form, of any patents (granted or under application) that may cover technology that is under consideration by or has been approved by IEEE 802.16. The Chair will disclose this notification via the IEEE 802.16 web site <http://ieee802.org/16/ipr/patents/notices>.</p>	

Draft Agenda for Meeting to discuss new coexistence issues at Session #12

Philip Whitehead
Radiant Networks Plc

The meeting to discuss this subject is held under the new call for interest in coexistence matters and does not form part of the TG2 formal agenda. The timing and duration of this meeting is to be determined during session #12. Further work arising from this meeting is subject to plenary and 802 approval. Officials for such further work would need to be identified and appointed.

1. Introduction – review of call for interest
2. Procedures for new coexistence work
3. Review of input documents
4. Scope and purpose review
5. Issues for point to point coexistence
6. Issues for sub 11 GHz coexistence
7. Definition of simulation work required for new studies
8. Preparation of a work plan proposal (subject to plenary agreement)
9. AOB

Note: The TG2 business is covered by a separate agenda.
