28 January 2003

Dear P802.16.2a Balloting Group:

Thank you for your participation in the Sponsor Ballot of P802.16.2a/D3. The ballot closed on 11 January 2003. The results are, in summary:

41	Approve
2	Disapprove
6	Abstain
13	Not Voting

By virtue of these numbers, the ballot is considered to have passed, pending recirculation. We received 112 comments, of which 4 were Disapprove comments. Resolutions were developed by a Ballot Resolution Committee composed of Task Group 2 of the IEEE 802.16 Working Group on Broadband Wireless Access. The committee, chaired by Phil Whitehead, met at a regular session of the IEEE 802.16 Working Group on Broadband Wireless Access on 13-16 January 2003. We are requesting that the IEEE Balloting Center initiate a ten-day recirculation.

We are including a new draft (**P802162a_D4.pdf**) in the ballot package. However, please understand that the scope of this recirculation includes not the entire draft but only the portions that changed as a result of the comment resolution. In order for you to track those changes, the ballot package also includes a detailed list of the 112 comment resolutions (**80216-03_02r2.pdf**). Should you prefer the database version of the resolutions for use with the program *Commentary*, it is available at http://ieee802.org/16/docs/03/80216-03_02r2.zip.

Following comment resolution, one of the Disapprove voters informed us that he was satisfied and converting his vote to Approve. The other Disapprove voter was dissatisfied with the resolutions of his three Disapprove comments. Please pay particular attention to these three outstanding Disapprove comments, which are numbered 80, 95, and 97. You will find these in the PDF comment list on pages 85, 100, and 102.

Document C802.16.2a-03/01 (**C802162a-03_01.pdf**), which is referenced in the comment resolutions, is also included in the ballot package.

Please take this opportunity to review the package. You need not reply; if you do not, your current vote will stand. Based on the changes to the draft or on the Disapprove comments and responses, you may change your vote and/or submit additional comments. If you wish to re-vote or comment, please keep the deadline in mind. Instructions have been provided by the IEEE Balloting Center.

Sincerely,

A handwritten signature in blue ink that reads "Roger B. Marks".

Roger Marks
