Re:	Comment resolutions in IEEE 802.16-04/69r4	
Abstract	This document announces and details the procedure for the Ballot Resolution Committee Recirculation of comments in IEEE 802.16-04/69r4.	
Purpose	To document the Ballot Resolution Committee Recirculation process.	
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.	
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.	
Patent Policy and Procedures	The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures < http://ieee802.org/16/ipr/patents/policy.html >, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair < mailto:chair@wirelessman.org > as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site < http://ieee802.org/16/ipr/patents/notices >.	

P802.16e Ballot Resolution Committee Recirculation Announcement

1. Introduction

This announcement opens an IEEE 802.16 Ballot Resolution Committee Recirculation to review:

(a) the resolutions of comments from the P802.16e/D5 Sponsor Ballot, as recorded in IEEE 802.16-04/69r4:

[<http://iee802.org/16/docs/04/80216-04_69r4.zip>](http://iee802.org/16/docs/04/80216-04_69r4.zip)

(b) the implementation of those comments in the draft P802.16e/D5a:

[<http://iee802.org/16/private/drafts/tge/P80216e_D5a.zip>](http://iee802.org/16/private/drafts/tge/P80216e_D5a.zip)

Document title: *“Draft IEEE Standard for Local and Metropolitan Area Networks - Part 16: Air Interface for Fixed Broadband Wireless Access Systems - Amendment for Physical and Medium Access Control Layers for Combined Fixed and Mobile Operation in Licensed Bands*

Opening date: **23 December 2004**

Closing date: **10 January 2005 AOE** (“Anywhere on Earth”)

2. Procedure

2.1 Voting

No voting will be associated with this recirculation.

2.2 No Obligation of Working Group Members to Participate in Ballot

Working Group Members are not obliged to participate in this ballot. Participation or lack of participation will not affect Working Group Membership.

2.3 Scope of Recirculation

The scope of the recirculation ballot includes only the comment resolutions recorded in IEEE 802.16-04/69r4 and their implementation into the draft P802.16e/D5a.

2.4 Specification of Objectionable Comment Resolutions

Each comment *must* specifically reference a comment resolution that is found objectionable. In particular, each comment must begin with one of the following:

- “I object to the resolution of Comment # x because...”
- “I object to the implementation in the draft of Comment # x because...”

where x is the number of one or more comments in IEEE 802.16-04/69r4.

Comments that do not follow this format will not be considered, or will be considered as a low priority, depending on available time.

2.5 To submit comments

If you wish to submit comments, you must download the standalone program *Commentary* (version 1.5 or higher) and use it to prepare your comments. *Commentary* is available at:

<http://ieee802.org/16/docs/Commentary>

Comments will be considered only if uploaded to:

<http://tgeballot.wirelessman.org>.

2.6 Ballot Resolution Committee

The Ballot Resolution Committee comprises the current members of the IEEE 802.16 Working Group on Broadband Wireless Access

<http://wirelessman.org/members.html>.

Individuals who are not Ballot Group members are welcome to submit comments.

3. Patent Policy and Procedures

Please take note of the IEEE 802.16 Patent Policy

<http://ieee802.org/16/ipr/patents/policy.html>.

IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard. Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft

publication will be approved for publication. Please notify the Chair <<mailto:chair@wireless-man.org>> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <<http://iee802.org/16/ipr/patents/notices>>.
