IEEE 802.16-06/031

Project	IEEE 802.16 Broadband Wireless Access Working Group < http://ieee802.org/16 >	
Title	IEEE 802.16 Working Group Letter Ballot Recirc #21a: Announcement	
Date Submitted	2006-06-13	
Source(s)	Roger Marks NIST, MC 818.00 325 Broadway Boulder, CO 80305	Voice: +1 303 497 7837 mailto:r.b.marks@ieee.org
Re:	IEEE 802.16 WG Letter Ballot Recirc #21a, on P802.16g/D3	
Abstract	This document announces and details the procedure for IEEE 802.16 Letter Ballot Recirc #21a, in which P802.16g/D3 is under review.	
Purpose	To document the process of Letter Ballot Recirc #21a.	
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.	
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.	
Patent Policy and Procedures	The IEEE 802.16 Working Group operates under the Patent Policy of the IEEE Standards Association (IEEE-SA), as set forth in Clause 6 of the IEEE-SA Standards Board Bylaws < http://standards.ieee.org/guides/bylaws/sect6-7.html#6 >, and the operational procedures found in Clause 6.3 of the IEEE-SA Standards Board Operations Manual < http://standards.ieee.org/guides/opman/sect6.html#6.3 >.	

IEEE 802.16 Working Group Letter Ballot Recirc #21a

1. Introduction

This announcement opens IEEE 802.16's Letter Ballot Recirc #21a, on the question:

To accept the resolutions of comments from Working Group Letter Ballot #21, as recorded in IEEE 802.16-06/027r2 <http://iee802.org/16/docs/06/80216-06_027r2.zip>, and to adopt IEEE 802.16maint-06/003r2 <http://iee802.org/16/maint/docs/80216maint-06_003r2.zip> as the Maintenance Process for the IEEE 802.16 Working Group.

Recirc opening date: **13 June 2006**

Recirc closing date: **7 July 2006**, AOE <<http://iee802.org/16/aoe.html>>:

<http://timeanddate.com/worldclock/fixedtime.html?month=7&day=8&year=2006&hour=01&min=0&sec=0&p1=1033>

2. Procedure

2.1 Results of Prior Ballot Rounds

The **Results of Letter Ballot #21** (including recirculations) are available at

<http://iee802.org/16/maint/ballot21/report21.html>.

The ballot results stand at 150 Approve, 9 Disapprove, 2 Abstain), pending recirculation of changes to resolve the comments. The current approval ratio of 94% is above the 75% minimum required for approval.

All comments received, along with the resolutions developed by the IEEE 802.16 Working Group, are available in IEEE 802.16-06/027r2:

<http://iee802.org/16/docs/06/80216-06_027r2.zip>

2.2 Previous Votes Carried Forward

If you do not cast a ballot in this recirculation but cast a previous ballot in Working Group Letter Ballot #21 or a recirculation of it, your previous vote will be carried forward.

2.3 No Obligation of Working Group Members to Participate in Ballot

Working Group Members are not obliged to participate in this ballot, nor in any recirculation ballot. Participation or lack of participation will not affect Working Group Membership.

2.4 Scope of Ballot

~~The scope of the recirculation ballot includes only the disposition of the outstanding Disapprove (“Technical, Binding”) comments and the changes to the draft as documented in the comment resolutions under review (along with the implementation of those resolutions in the draft).~~^λ

2.5 To submit a ballot

To submit a ballot, use the form at:

<http://dot16.org/ballot21/ballotform21a.html>

2.6 Disapprove Votes

Disapprove votes must include specific “Technical, Binding” comments on what must be done to the comment resolutions to change the vote to “Approve”.

If you are on record as a Disapprove voter following the previous ballot round, please submit a ballot in which you either vote Approve or in which you specify, in a comment, which of your previous Binding comments may be marked “Satisfied”.

2.7 To submit a ballot with comments or to submit comments only

If you wish to submit a ballot with comments (with or without a vote), you must download the standalone program *Commentary* (version 1.5 or higher) and use it to prepare your vote and comments. Submission instructions are included. *Commentary* is available at:

<http://ieee802.org/16/docs/Commentary>

Comments *must* be submitted following the procedure defined in the ballot form:

<<http://dot16.org/ballot21/ballotform21a.html>>.

2.8 To confirm receipt of your ballot and check the ballot status report

To confirm receipt of your ballot, see the ballot status report at:

<<http://ieee802.org/16/netman/ballot21/report21.html>>.

To submit a ballot, use the form at:

<http://dot16.org/ballot21/ballotform21a.html>

3. Working Group Letter Ballot Process

3.1 Criteria for Approval

3.1.1 50% Return Rate

The ballot will not be considered successful if less than 50% of the ballot group members return a vote. If this return rate has not been achieved by the specified closing date, the ballot may be extended by the Working Group Chair.

3.1.2 75% Approval Rate

The ballot will not be considered successful unless approved by at least 75% of the ballot group members voting “Approve” or “Disapprove”.

3.1.3 Comment Resolution

The Working Group shall attempt to resolve all comments collected in the ballot process. All substantive technical changes, and all unresolved negative votes, together with the reasons of the negative voter and the rebuttal by the Ballot Resolution Committee, shall be subject to a recirculation ballot of at least fifteen days.

3.1.4 Failed Ballots

Should the approval rate be less than 75%, the Working Group shall nevertheless proceed with comment resolution and then offer “Disapprove” voters the opportunity to change their vote to “Approve”. Should this process result in a 75% or higher approval rate, the approval criterion in 3.1.2 shall be considered met.

Should this process fail to achieve the 75% approval rate, a new draft shall be prepared in accordance with the comment resolutions. A new Working Group Letter Ballot of the resulting draft shall be initiated by vote of the Working Group or at the discretion of the Working Group Chair.

3.2 Ballot Group

The Ballot Group for Letter Ballot #21 is provided in Annex A. It includes the individuals who are Members of IEEE 802.16 as of the start of the Letter Ballot. Except to remedy errors in the this membership list, the Ballot Group will not change through the course of Letter Ballot #21, including its resulting recirculation ballots, even as the Working Group membership changes.

3.3 Participation by Individuals outside the Ballot Group

Individuals who are not Ballot Group members are welcome to submit ballot comments following the procedure in 2.7.

3.4 Public Release of Individual Ballots

Detailed ballot results will be posted to the IEEE 802.16 Web Site.

4. Patent Policy and Procedures

The IEEE 802.16 Working Group operates under the Patent Policy of the IEEE Standards Association (IEEE-SA), as set forth in Clause 6 of the IEEE-SA Standards Board Bylaws

<<http://standards.ieee.org/guides/bylaws/sect6-7.html#6>>,

and the operational procedures found in Clause 6.3 of the IEEE-SA Standards Board Operations Manual

<<http://standards.ieee.org/guides/opman/sect6.html#6.3>>.
