

Project	IEEE 802.16 Registration Authority Issue
Title	Proposed Public Listings on 802.16 Operator ID for IEEE Registration Authority
Date:	2006-09-28
Source(s)	<p>Scott Probasco scott.probasco@nokia.com Nokia 6000 Connection Drive, Irving, TX 75039</p> <p style="text-align: right;">As Chairman of the OID Ad Hoc</p>
Re:	IEEE 802.16-06/016r3 (Letter to RAC regarding 802.16)
Abstract	This document is input to Operator ID ad hoc.
Purpose	As the basis of an IEEE Registration Authority to assign Operator IDs per IEEE Std 802.16.
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.
Patent Policy and Procedures	The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures < http://ieee802.org/16/ipr/patents/policy.html >, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair < mailto:chair@wirelessman.org > as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site < http://ieee802.org/16/ipr/patents/notices >.

IEEE 802.16 Operator ID

The below public listings should be searched prior to applying for an OID. Searching the list will allow you to determine whether your company or any parent/subsidiary companies already own an assignment. When searching the public listings, OIDs should be entered as XX-XX-XX.

Search the public OID listing . . .
[search box]

IEEE 802.16 Operator ID Assignments Announcement

These listings are updated daily.

The OID is used as the upper 24-bits of the Base Station Identifier per IEEE Std 802.16 for use in IEEE 802.16 networks.

If your firm deploys network(s) using IEEE Std 802.16 that require Globally Unique Operator ID(s), you should apply to IEEE for your firm's IEEE 802.16 Operator ID. This is the one world-wide source of registered IEEE 802.16 Operator IDs. For further details contact:
