### IEEE 802.16 Session #47 Opening Plenary Meeting

Monday 15 January 2007

#### Call to Order

The meeting was called to order by Working Group (WG) Vice Chair (Acting Chair for Session #47) Jose Puthenkulam at 1:05 pm. He welcomed attendees to Session #47 of the IEEE 802.16 WG. Jose provided the URL for the opening plenary agenda <<http://iee802.org/16/meetings/mtg47/opening.html>>. Jose introduced himself and Secretary Peiyong Zhu and explained that Working Group (WG) Chair Roger Marks was absent due to his attendance at the ITU-R Working Party 8F meeting this week to present the contributions developed by the IEEE 802.16 WG.

The slides, prepared by WG Chair (Roger Marks) to guide the meeting during the Opening Plenary, are available in document IEEE 802.16-07/003.

The Acting Chair outlined networking, logistical and registration issues. He instructed that all attendees must have a clearly visible name badge while on the meeting floors and during the social.

#### Membership and Voting

The electronic attendance sign-in log procedure was explained by Jose. Ten attendance intervals [Mon pm; Mon evening; Tue am; Tue pm; Tue evening; Wed am; Wed pm; Thu am; Thu pm; Thu evening]. "Participation" Requirement: seven intervals (rounded down from 75%). The membership ID displayed on the badge is required for electronic log. Interval is based on clock time with slight grace periods. On-line database is the official record; do not request exceptions.

Attendance credit will be granted to **802.16 members** for participation in IEEE 802.18, 802.19, and 802.21. Attendees are responsible to record this in the IEEE 802.16 attendance log and forward proof of participation to WG Chair Roger Marks by Friday 19 Jan. 2007.

The lists of WG Members, Potential Members, Members in Peril, and Observers were explained by the Acting Chair. Name badges for members were annotated with "M.16" and doubled as voting tokens.

The Acting Chair then reviewed the agenda and asked for comments or concerns on the agenda. No comments were received.

#### Approvals

**Motion (at 1:34pm):** To approve the Opening Plenary Meeting Agenda on the 802.16 web site <<http://iee802.org/16/meetings/mtg47/opening.html>>, proposed by Mariana Goldhamer, seconded by David Johnston, approved by unanimous voice vote.

**Motion (at 1:39pm):** To approve the minutes of Session #46 (IEEE 802.16-06/084), proposed by Ken Stanwood, seconded by David Johnston, motion passed by 60/0/0.

### **Chair's Status Report**

### **IEEE 802 P&P issues**

Jose highlighted parts of the IEEE 802 Policies and Procedures (P&P) as shown in the opening slides in document IEEE 80216-07/003, in particular, related to WG operation, Chair's function, WG Rules such as working group domination, copyrights, contribution procedures, and restrictive notices.

### **Legal Announcements**

The following advice was provided by the Acting WG Chair concerning IEEE Standards Association (IEEE-SA) rules regarding patents:

- The IEEE's patent policy is consistent with the ANSI patent policy and is described in Clause 6 of the IEEE-SA Standards Board Bylaws;
- Early disclosure of patents which may be essential for the use of standards under development is encouraged;
- Disclosures made of such patents may not be exhaustive of all patents that may be essential for the use of standards under development, and that neither the IEEE, the WG, nor the WG Chairman ensure the accuracy or completeness of any disclosure or whether any disclosure is of a patent that, in fact, may be essential for the use of standards under development.

Slide #1 ("IEEE-SA Standards Board Bylaws on Patents in Standards") and Slide #2 ("Inappropriate Topics for IEEE WG Meetings") were shown (slides included February 2006 revisions by Standards Board).

An opportunity was provided for WG members to identify or disclose patents that the WG member or any participants believes may be essential for the use of that standard. There were no responses to this announcement.

### **Review of Session #46 report**

Jose encouraged people to review Session #46 report <<http://ieee802.org/16/meetings/mtg46/report.html>>.

The IEEE-SA standards board approved the 802.16m PAR on 6 Dec. 2006 following approval of IEEE 802 EC in email ballot.

Task Group m (TGM) was created to develop P802.16m. The WG Chair had called for volunteers to serve as officers for TGM. The WG chair named Brian Kiernan as the acting chair and intends to ask him to continue as TGM Chair. The rest of officers will be named after Session #47.
