RE: NEW P802.16g/D9 (C/LM + MTT) IEEE Standard for Local and Metropolitan Area Networks - Part 16: Air Interface for Fixed and Mobile Broadband Wireless Access Systems - Amendment 3: Management Plane Procedures and Services

Dear Roger,

I must inform you that P802.16g was disapproved as a new amendment to IEEE Std 802.16-2004 by the IEEE-SA Standards Board on 7 June 2007.

The Sponsor must conduct a recirculation ballot to show all unresolved comments associated with negative votes, and their responses, to the ballot group. The Sponsor is encouraged to input all comments and responses into the myBallot system for ease of submittal package review by RevCom. The Sponsor shall inform the ballot group that the myBallot system must be used as the mechanism for ballot comment submission. Geoff Thompson will be the RevCom mentor to the Sponsor.

Sincerely,

\*\*\*\*\*
