WG plenary

Base Document:

Purpose:

Proposal to host session #53 in Levi, Finland, with Nokia and Nokia Siemens Networks as corporate hosts

Notice:

This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release:

The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

IEEE 802.16 Patent Policy:

The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <<http://ieee802.org/16/ipr/patents/policy.html>>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <<mailto:chair@wirelessman.org>> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <<http://ieee802.org/16/ipr/patents/notices>>.

# IEEE 802.16 session #53, Levi, Finland

Venue:

Levi Center Hullu Poro,  
Levi, Finland

  - Chalets and apartments from 2- 15 persons

# FAQ

Will it be cold?

Outdoors probably yes, indoors no

Will it be really cold?

Maybe, during session 17 the temperatures were as low as -36°C

Will it be dark?

The day is really short, officially the sun is up for a few hours, but there is no need to bring sun block!

Will I see northern lights?

There is a good chance of seeing northern lights, especially if it will be cold

Will I be eaten alive by polar bears?

No, there are no polar bears in Finland

Will the social event be as much fun as during session #17?

The strong intent is to live up to the high standard set at that session!
