## IEEE 802.16 Session #55 Opening Plenary Meeting

May 12, 2008

### Call to Order

The meeting was called to order by the Working Group (WG) Chair Roger Marks at 1:17 pm. He welcomed the attendees to Session #55 of the IEEE 802.16 WG. Roger provided the URL for the opening plenary agenda <<http://ieee802.org/16/meetings/mtg55/opening.html>>. Roger introduced himself, Working Group (WG) Vice Chair Jose Puthenkulam, and Secretary Peiying Zhu.

Phillip Barber welcomed the attendees on behalf the meeting host, Jianmin Lu (absent at the moment) of Huawei, and corporate hosts China Mobile, Huawei, ZTE, and CATR. Phillip outlined the networking, the logistical, and the registration issues..

### Membership and Voting

The lists of WG Members, Potential Members, Members in Peril, and Observers were explained by the Chair. Voting tokens were distributed at the registration desk.

The electronic attendance sign-in log procedure was explained by Roger. Roger emphasised that the affiliation field in the sign-in log must be filled based on the IEEE-SA affiliation disclosure requirements, as detailed on the Opening Plenary Agenda. The session is planned to include eight attendance intervals [Mon pm; Tue am; Tue pm; Wed am; Wed pm; Thu am; Thu pm; Thu evening]. The "Participation" Requirement, nominally 75%, will be satisfied with six intervals. Roger emphasised the importance of using the correct names and Member ID upon signing, in order to receive the correct attendance credits. The membership ID is not displayed on the badge. The correct membership ID is required for the electronic log.

Roger explained that the affiliation needs to be declared at every session. Attendance software's mandatory "Affiliation" field is the appropriate Affiliation per [IEEE-SA affiliation disclosure requirements](#) and will be reported as such.

Roger then reviewed the agenda and asked for comments or concerns on the agenda. No comments were received.

**Motion (at 1:40pm):** "To approve the Opening Plenary Meeting Agenda as presented <<http://ieee802.org/16/meetings/mtg55/opening.html>>", moved by Kenneth Stanwood, seconded by Mariana Goldhamer, passed with unanimous consent.

### Approvals

Roger reviewed the draft minutes of Session #54 ([IEEE 802.16-08/017r1](#)) and asked for comments or concerns on the minutes. No comments were received.

**Motion (at 1:41pm):** "To approve the Minutes of Session #54 ([IEEE 802.16-08/017r1](#))", moved by Ronald Murias, seconded by Shawn Taylor, approved with unanimous consent.

### Chair's Report

Administrative, Procedural, and Announcements (see [Chair's Opening Plenary Presentation Slides](#))

Roger reviewed the IEEE-SA affiliation disclosure requirements <<http://standards.ieee.org/faqs/affiliationFAQ.html>> and again reminded the WG attendees to fill in the affiliation field. Roger reviewed the "Ethics policy" <[http://ieee.org/web/membership/ethics/code\\_ethics.htm](http://ieee.org/web/membership/ethics/code_ethics.htm)>.

Roger displayed the patent policy materials [http://standards.ieee.org/board/pat/pat-material.html\\_and](http://standards.ieee.org/board/pat/pat-material.html_and) new patent slides (updated March 25, 2008) <http://standards.ieee.org/board/pat/pat-slideset.pdf>

The following advice was provided by the WG Chair concerning IEEE Standards Association (IEEE-SA) rules regarding patents:

- The IEEE's patent policy is consistent with the ANSI patent policy and is described in Clause 6 of the *IEEE-SA Standards Board Bylaws*;
- Early identification of patent claims which may be essential for the use of standards under development is strongly encouraged;
- There may be Essential Patent Claims of which the IEEE is not aware. Additionally, neither the IEEE, the WG, nor the WG chair can ensure the accuracy or completeness of any assurance or whether any such assurance is, in fact, of a Patent Claim that is essential for the use of the standard under development.

Slide #1-#4 and slide #0 were shown. The slides are available at <http://standards.ieee.org/board/pat/pat-slideset.ppt>.

An opportunity was provided for participants to identify patent claim(s)/patent application claim(s) and/or the holder of patent claim (s)/patent application claim(s) of which the participant is personally aware and that may be essential for the use of that standard. No comments arose. Roger emphasized that the Bylaws take precedence over the patent slides and encouraged people to read the Bylaws if they have questions.

There were no other responses on the patent topic.

Roger showed the link to the IEEE 802.16-specific Letters of Assurance in IEEE-SA patent database ([http://standards.ieee.org/db/patents/pat802\\_16.html](http://standards.ieee.org/db/patents/pat802_16.html)),

Roger advised TG chairs regarding reiteration of the Call for Patents.

## IEEE 802 P&P issues

Roger highlighted parts of the IEEE 802 Policies and Procedures (P&P) <<http://ieee802.org/devdocs.html>> as shown in the opening slides in document IEEE 802.16-08/024, in particular, issues related to WG operation, Chair's function, WG Rules such as working group domination, copyrights, contribution procedures.

Roger informed the group of the discussion in the 802 EC meeting at the March plenary related to an allegation of possible domination in the 802.11 Working Group.

Roger briefly introduced: the active task groups, and the ITU Liason Group. Roger commended the Relay Task Group officers excellent efforts of preparing the materials for seeking conditional approval for sponsor ballot during the last March meeting.

## Review of Session #54 Report

Roger reviewed Session #54 report and strongly encouraged the group to read the report to get familiar with the groups' progress.

## [Session #55 Document Guide](#)

Roger reviewed the [Session #55 Document Guide](#).

## Schedule for the Week

The schedule for the week was presented for the various task groups and ad hoc groups < <http://dot16.org/calendar/week.php?date=20080512>>.

The TGM Chair, Brian Kiernan presented the opening report (document C802.16m-08/019). Brian reviewed the plan for the week. Brian informed the group there will be a joint meeting with Relay TG on Tuesday morning (8-10am), two or three parallel break out sessions and no current plan to hold any evening meetings. There were some discussions on the agenda and the plan. Roger suggested to discuss the detailed work plan in the TGM opening meeting.

## License-Exempt Task Group

The LE TG Chair, Mariana Goldhamer, presented the opening report (see IEEE 802.16h-08/009), including the Letter Ballot Recirc #29b status and the plan for the week.

Jose Puthenkulum asked about the plan for the Sponsor Ballot. Mariana replied that LE TG intended to seek EC's approval of the Sponsor Ballot in July Plenary Session.

## Relay Task Group

The Relay TG Chair Mitsuo Nohara reported the status of the Letter Ballot Recirc #28c (89% approval ratio, 89% return ratio) on IEEE P802.16j/D4. Nohara-san then explained the Relay Task Group draft agenda for the week (IEEE 802.16j-08/007r1) and expected motions for the WG Closing Plenary.

## Maintenance Task Group

The Maintenance TG Chair, Jonathan Labs, presented the opening report (IEEE 802.16maint-08/013r5) and informed the group that Scott Probasco will be the acting secretary for this session due to the absence of the Chief Editor Joseph Schumacher. Jon reviewed the progress on the revision project (P802.16Rev2/D4 is the latest document), reporting the LB #26c status (86% return ratio, approval ratio 79%). Jon reviewed the plan for the week and the sponsor ballot.

## New Business

Mike Hart raised an issue on the protection of IEEE 802.16 system from UWB devices in Europe in the 3.5 GHz band. There is an ECC document up for consultation. Mike requested people interested in the topic to voice their opinions. The comment deadline for the document is May 19, 2008. Roger commented that it may not be possible to have an official view from IEEE 802 since it requires EC's approval for any official communication with government body. Roger suggested to investigate the way of handling this issue by the ITU Liaison Group. There were no objections to deal with this issue in the ITU Liaison Group.

Roger announced that he will look into the possibility of arranging toffice hours in this session.

**Motion (3:11pm)** *"To adjourn the meeting"*, moved by Shkumbin Hamiti, seconded by Scott Migaldi, passed by unanimous voice vote.
