## IEEE 802.16 Session #57 Opening Plenary Meeting

Sept 16, 2008

### Call to Order

The meeting was called to order by the Working Group (WG) Chair Roger Marks at 8:30 am. He welcomed the attendees to Session #57 of the IEEE 802.16 WG. Roger provided the URL for the opening plenary agenda <<http://iee802.org/16/meetings/mtg57/opening.html>>. Roger introduced himself, Working Group (WG) Vice Chair Jose Puthenkulam, and Secretary Peiyong Zhu.

Roger outlined the networking, the logistical, and the registration issues.

- IEEE 802.16 server: <http://lan.wirelessman.org>

The meeting host, Mitsuo Nohara, welcomed the attendees. Nohara-san updated the logistical and the registration issues. Nohara-san requested a permission to take some photos during the session. Roger asked the opinions of the attendees. There were no objections raised. Roger granted the permission to Nohara-san.

*Security:* Keep your personal belongings secure at all times. All attendees must have their name badges clearly visible while on the meeting floors, for all refreshment breaks, and for the social. Guests for the social do not require a name badge but must be accompanied by a badged attendee.

### Membership and Voting

The lists of WG [Members](#), [Potential Members](#), [Members in Peril](#) and Observers were explained by the Chair. Voting tokens were distributed at the registration desk and displayed on the name badge.

#### Attendance:

- Working Group [Membership](#) depends on "participation"
- "participation" depends on attendance (75%)
- "attendance" depends on attendance logs recorded during each individual meeting interval

**Attendance Log procedure:** You must use the IEEE Automated Meeting Attendance Tool ("IMAT") if you wish to receive participation credit for Session #57. This credit is essential to retaining or obtaining Working Group Membership or Observer status. In order to use IMAT, you must have an IEEE Web Account for use during the session. See [email notice](#) and [IEEE 802.16-08/036](#). Attendance software's "Affiliation" field is the appropriate Affiliation field per [IEEE-SA affiliation disclosure requirements](#) and will be reported as such.

Roger then reviewed the agenda and asked for comments or concerns on the agenda. No comments were received.

**Motion (at 8:47am):** "To approve the Opening Plenary Meeting Agenda as presented <<http://iee802.org/16/meetings/mtg57/opening.html>>", moved by Mariana Goldhamer, seconded by David Johnston, passed with unanimous consent.

## Approvals

Roger reviewed the draft minutes of Session #56 ([IEEE 802.16-08/046](#)) and asked for comments or concerns on the minutes. No comments were received.

**Motion (at 8:49am):** “To approve the Minutes of Session #56 ([IEEE 802.16-08/046](#)), moved by Brian Kiernan, seconded by Lei Wang, approved with unanimous consent.

## Chair's Report

Administrative, Procedural, and Announcements (see [Chair's Opening Plenary Presentation Slides](#))

Roger reviewed the IEEE-SA affiliation disclosure requirements <<http://standards.ieee.org/faqs/affiliationFAQ.html>> and again reminded the WG attendees to fill in the affiliation field. Roger reviewed the “Ethics policy” <[http://ieee.org/web/membership/ethics/code\\_ethics.htm](http://ieee.org/web/membership/ethics/code_ethics.htm)>.

Roger displayed the patent policy materials <http://standards.ieee.org/board/pat/pat-material.html> and new patent slides (updated March 25, 2008) <http://standards.ieee.org/board/pat/pat-slideset.pdf>.

The following advice was provided by the WG Chair concerning IEEE Standards Association (IEEE-SA) rules regarding patents:

- The IEEE’s patent policy is consistent with the ANSI patent policy and is described in Clause 6 of the *IEEE-SA Standards Board Bylaws*;
- Early identification of patent claims which may be essential for the use of standards under development is strongly encouraged;
- There may be Essential Patent Claims of which the IEEE is not aware. Additionally, neither the IEEE, the WG, nor the WG chair can ensure the accuracy or completeness of any assurance or whether any such assurance is, in fact, of a Patent Claim that is essential for the use of the standard under development.

Slide #1-#4 and slide #0 were shown. The slides are available at <http://standards.ieee.org/board/pat/pat-slideset.ppt>.

An opportunity was provided for participants to identify patent claim(s)/patent application claim(s) and/or the holder of patent claim(s)/patent application claim(s) of which the participant is personally aware and that may be essential for the use of that standard. No comments arose. Roger emphasized that the Bylaws take precedence over the patent slides and encouraged people to read the Bylaws if they have questions.

There were no other responses on the patent topic.

Roger showed the link to the IEEE 802.16-specific Letters of Assurance in IEEE-SA patent database ([http://standards.ieee.org/db/patents/pat802\\_16.html](http://standards.ieee.org/db/patents/pat802_16.html)).

Roger advised TG chairs regarding reiteration of the patent slides.

## IEEE 802 P&P issues

Roger highlighted parts of the IEEE 802 Policies and Procedures (P&P) <<http://ieee802.org/devdocs.html>> as shown in the opening slides, and addressed issues related to WG operation, Chair’s function, WG Rules such as working group domination, copyrights, contribution procedures.

Roger informed the attendees of the free online IEEE standard training course: <<http://ieee802.org/training.htm>>.

## Review of Session #56 Report

Roger reviewed the [Session #56 Report](#) and strongly encouraged the group to read the report to get familiar with the group’s progress.

## Session #57 Document Guide

Roger reviewed the [Session #57 Document Guide](#)

Roger and Reza Arefi will chair the ITU-R Liaison Group meetings in place of José Costa, who is absent from the session.

Roger informed the group regarding the Liaison Statement from the WiMAX Forum on Femtocell Requirements ([IEEE L802.16-08/053](#)), which was mainly targeted to TGm. Roger recommended that TGm draft a response.

Roger informed the group regarding the Liaison Statement from the WiMAX Forum regarding clarifications and corrections to support WiMAX certification ([IEEE L802.16-08/052r1](#)). The Maintenance Task Group was requested to review the statement and draft a response.
