Roger B. Marks
Chair, IEEE 802.16 Working Group
r.b.marks@ieee.org
29 January 2009

Dear P802.16 Balloting Group:

Thank you for your participation in the Sponsor Ballot Recirculation of P802.16Rev2/D8, which ran from 3-18 December 2008. Prior to comment resolution, the numerical results were 165 Approve, 4 Disapprove with Comment, and 14 Abstain. This satisfies the numerical conditions for approval. These numbers do not consider changes in vote as a result of comment resolution.

Comments were resolved by the IEEE 802.16 Working Group during its Session #59 in January. We have uploaded the resolutions to the IEEE-SA myBallot system. In addition to the 55 comments submitted through myBallot, the 802.16 Working Group received another 57 comments directly; the latter are not associated with Disapprove votes. The Working Group has posted the full documentation regarding the resolution of all of these comments, along with the editor's implementation notes, in document IEEE 802.16-08/064r3 at http://ieee802.org/16/docs#08_064. In that file, the myBallot comments are numbered b1-b55, corresponding to the myBallot numbers; the additional comments are numbered B30001-B30057. Note that some changes refer to documents contributed directly to the 802.16 Working Group. These are available at <http://ieee802.org/16/maint#contrib>.

We are requesting that the IEEE Balloting Center initiate a recirculation of the new draft P802.16Rev2/D9 (file *P80216Rev2_D9.pdf*, or *P80216Rev2_D9.zip* in ZIP form). We are also providing the ballot group with *P80216Rev2_D9delta.pdf* showing the changes with respect to D8.

Please take this opportunity to review the material. Since this is a recirculation ballot, you need respond only if you wish to change your initial vote or submit additional comments within scope of the recirculation. No comment will be considered as a valid element of a Disapprove vote unless the voter enters it into the myBallot database and designates it appropriately.

If you have voted Disapprove, I urge you to review the comment resolutions and let us know which, if any, of your comments have been satisfactorily resolved. If you choose to cast an Approve vote, we will assume that all of them are resolved to your satisfaction.

Please note that we plan to submit P802.16Rev2/D9 for RevCom review.

Sincerely,

Roger Marks
