Roger B. Marks
Chair, IEEE 802.16 Working Group
r.b.marks@ieee.org
18 February 2011

Dear P802.16m Balloting Group:

Thank you for your participation in the recirculation of P802.16m/D11, which ran from 27 January -11 February 2011. This was the fifth recirculation. Prior to comment resolution, the numerical results were 273 Approve, 11 Disapprove with Comment, 1 Disapprove without Comment, and 15 Abstain. The approval ratio of 96% exceeded the threshold.

Comments were resolved by a Ballot Resolution Committee authorized by the IEEE 802.16 Working Group during its Session #71 in January. We have uploaded the resolutions to the IEEE-SA myBallot system.

We are requesting that the IEEE Balloting Center initiate a recirculation of the new draft P802.16m/D12. The only changes made with respect to D11 are the editorial corrections specified as the response to Comment #3.

The baseline for the amendment is IEEE Std 802.16. We have previously provided you with IEEE Std 802.16-2009 and the amendments IEEE Std 802.16j-2009 and IEEE Std 802.16h-2010; the first two of these are also available at <http://standards.ieee.org/getieee802/802.16.html>.

Please take this opportunity to review the material. Since this is a recirculation ballot, you need respond only if you wish to change your initial vote or submit additional comments within scope of the recirculation. No comment will be considered as a valid element of a Disapprove vote unless the voter enters it into the myBallot database and designates it appropriately.

Sincerely,

Roger Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access
