Enclosures: none

Dear Dr Roger Marks,

The work group "FWA below 11 GHz" of ETSI/BRAN thanks IEEE 802.16BWA.3 for the appointment of David Trinkwon as contact person and that David presented the status of IEEE 802.16BWA.3 for the work group on the first interim meeting in Helsinki 2000-08-25.

The work group "FWA below 11 GHz" has asked all participating companies to respond on your "Functional Requirements for the 802.16.3 Interoperability Standard" (Document IEEE 802.16.3-00/02r3) individually as a support in your work.

The work group "FWA below 11 GHz" has appointed Dr. Demosthenes J. Kostas as contact person.

We also look forward to work with you in close cooperation with the aim of achieving maximum commonality and worldwide standards.

With kind regards,

Jamshid Khun-Jush
