10 October 2000

Andrew Kreig, President
Wireless Communications Association International
<mailto:president@wcai.com>

Dear Andrew:

Thank you for your letter ([IEEE 802.161-00/25](http://www.ieee.org/802.161-00/25)) of 9 September 2000. We appreciate your support of 802.16's work. I acknowledge and accept your nomination of Demos Kostas as liaison from the WCA Engineering Committee and look forward to our enhanced contacts.

At this time, I believe that the most effective route for your participants to contribute to our progress is by engaging in our comment and contribution process. Here are our primary outstanding requests for input:

- The 802.16.1 Air Interface for Fixed Broadband Wireless Access Systems (10-66 GHz) is nearing completion. We are currently holding a Working Group Review of the document; during this time, comments are requested. The Call for Comments, with instructions on how to participate, is Document IEEE 802.16.1-00/05r1 <http://www.ieee802.org/16/tg1/docs/802161-00_05r1.pdf>.
- The 802.16.2 Recommended Practice on "Coexistence of Broadband Wireless Access Systems" is undergoing a Final Task Group Review. Comments are requested. The Call for Comments, with instructions on how to participate, is Document IEEE 802.16.2-00/07 <http://www.ieee802.org/16/coexistence/docs/802162-00_07.pdf>.
- Our Task Group 3 is seeking initial proposals for the physical layer to be included in its standard air interface for licensed bands from 2-11 GHz. The Invitation to Contribute is Document IEEE 802.16.3-00/14 <http://www.ieee802.org/16/sub11/docs/802163-00_14.pdf>.
- Task Group 3 is seeking proposals for traffic, deployment, and channel models. The Invitation to Contribute is Document IEEE 802.16.3-00/13 <http://www.ieee802.org/16/sub11/docs/802163-00_13.pdf>.

I would be delighted if you could let your participants know that we are seeking their input.

Best regards,

A handwritten signature in black ink that reads "Roger".

Roger B. Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access

cc: Jim Carlo, Chair, IEEE 802 LAN/MAN Standards Committee
