Marianna Goldhammer

Date: January 19, 2001

Dear Roger,

In response to your letter dated 21st November 2000, I would like to call to your attention the change of the name of the working group "FWA below 11GHz" to High Performance Radio Metropolitan Area Network (HIPERMAN). The group very well received the appointment of Marianna Goldhammer as IEEE 802.16.3 liaison to HIPERMAN, with Demos Kostas as an alternate.

Regarding the access right of HIPERACCESS members to 802.16 documents, the HIPERACCESS Standard Area agreed with my suggested plan that proposes to track participation in "recent" HIPERACCESS meetings. I would propose to use the definition of your Working Group for "recent". In addition, I would suggest to record the participation of HIPERACCESS members by including an additional field in the BRAN registration form indicating the interest of attendees (HIPERACCESS or HIPERLAN2) and to use this for tracking the participation, in order to reduce the administrative work needed to implement the plan. I hope this is acceptable for you.

With best regards,

Jamshid Khun-Jush
Chairman EP BRAN
