Re: Call for Contributions on Project 802.16g

Dear Mr. Barber,

3GPP2 TSG-S WG5 is requesting to establish a liaison relationship with the IEEE 802.16 NETMAN Task Group. The purpose of such a relationship is to exchange information related to the development of network management specifications for heterogeneous networks. 3GPP2 TSG-S WG5 is the working group assigned in 3GPP2 to develop network management specifications, accomplishing this in close collaboration with 3GPP SA WG5. WG5 has established active liaisons with other groups within the telecommunications industry and desires to exchange information with IEEE 802.16 NETMAN for the management of mobile broadband wireless access standards.

3GPP2 TSG-S would appreciate consideration of this liaison request and welcome further discussions. If you have additional questions, please contact: Jörg Schmidt (J.Schmidt@Motorola.com).

Regards,

Richard Robinson
Chair, 3GPP2 TSG-S
