To: Ron Resnick
President, WiMAX Forum

Subject: Liaison Statement to WiMAX Forum regarding contributions to ITU-R

At IEEE 802.16 Session #56, the WG developed and agreed to several contributions to ITU-R that may be of significant interest to the WiMAX Forum. Following appropriate approval, we anticipate that IEEE will submit these.

The list of drafted contributions is as follows:

- [L802.16-08/044](#)* (“Updated material on IMT-2000 OFDMA TDD WMAN for Revision 9 of Recommendation ITU-R M.1457”)
- [L802.16-08/043](#)* (“Further Response on IMT-2000 OFDMA TDD WMAN ACS Values”)
- [L802.16-08/042](#)* (“Draft liaison contribution to ITU-R on parameters of radio interface technologies”)
- [L802.16-08/040](#)* (“Proposed draft contribution to ITU-R on the update of Recommendation ITU-R M.1801”)
- [L802.16-08/039](#) (“Proposed Amendments to ITU-R Technology Description Template”)

Please note that L802.16-08/044 and L802.16-08/043 are part of ongoing collaborations with the WiMAX Forum. It is our expectation that followup contributions to ITU-R by the WiMAX Forum will be forthcoming.

IEEE 802.16 Session #57 will be held in Kobe, Japan on 16-19 September 2008.

We look forward to continued cooperation.

Regards,

Roger B. Marks
