To: Tim Hewitt
Chair, Regulatory Working Group
WiMAX Forum

Subject: Update of Recommendation ITU-R M.1457

Dear Tim,

Thank you for your liaison statement dated 9 January 2009, which we have numbered [IEEE L802.16-09/0001](#).

We are pleased that the WiMAX Forum is preparing a contribution to the February meeting of WP 5D complementary to the IEEE contribution for Meeting X+2 of the M.1457 update cycle. Thank you for your intention to support the IEEE contribution. Please note that we have made a few editorial corrections to it prior to submission to ITU-R WP 5D. The updated version is available as [IEEE L802.16-08/071r2](#).

Thank you for providing us with *WiMAX Forum Mobile System Profile, Release 1 – IMT-2000 Edition*. We have incorporated references to the WiMAX Forum Mobile System Profile documents into the draft P802.16Rev2, which we plan to submit to ITU-R as an element of the IMT-2000 GCS.

We are looking forward to receiving the addendum to your liaison before the end of January.

Regards,

Roger
