Subject: Statement of intent to submit IMT-Advanced proposal

Dear Mike,

In accordance with the IEEE 802.18 IMT-Advanced Review Process specified in IEEE 802.18-08-0058/r6, the IEEE 802.16 Working Group states its intention to submit an IMT-Advanced proposal for 802.18 review in September.

The intended scope of the proposal has been described in document IEEE 802.18-18-08-0085. Note that the intent is to submit a RIT proposal based on three or four test environments. The final decision on the specific test environments will be contribution-driven.

Appendix A provides our work plan for completion of the required proposal elements. We expect to take advantage of 802.18's offer, as specified in IEEE 802.18-18-08-0085, to support contributions to the June WP 5D meeting. We will supply corresponding input to 802.18 by the May 12 deadline.

We look forward to continued cooperative interactions.

Regards,

Roger
