

Working Party 5D **(SWG Coordination)**

REPLY LIAISON TO IEEE ON SUBMISSION OF IMT-ADVANCED CANDIDATE TECHNOLOGY

1 Working Party 5D (WP 5D) has received, in Documents 5D/356 and 5D/443, notice of IEEE's
2 intention to submit a candidate IMT-Advanced RIT based on developments in IEEE. Working
3 Party 5D thanks IEEE for providing this advance information.

4 At its Meeting No. 4 in February 2009, WP 5D took note of IEEE's Document 5D/356 regarding
5 the proposal completeness requirements. In this regard, at Meeting No. 5 in June 2009, WP 5D took
6 note of the following text in 5D/443:

7 *"IEEE's current plan anticipates that the submission package of the candidate RIT will include the*
8 *following components:*

- 9 – *Technology description template (4.2.3.2)*
- 10 – *Link budget template (4.2.3.3)*
- 11 – *Self evaluation report including:*
 - 12 *i) Services compliance template (4.2.4.1)*
 - 13 *ii) Spectrum compliance template (4.2.4.2)*
 - 14 *iii) Performance compliance template (4.2.4.3)*
- 15 – *Indication of ITU IPR policy compliance*
- 16 – *Version of minimum technical requirements and evaluation criteria, pointing to Reports*
17 *ITU-R M.2133, M.2134, and M.2135, as appropriate.*
- 18 – *Any additional material that in our view could assist with the evaluation process."*

19 WP 5D agrees that such a package would, in principle, serve as a complete submission, and
20 Section 4.1 of Report ITU-R M.2133 provides additional details.

21 WP 5D anticipates receiving a complete submission from IEEE according to the defined IMT-
22 Advanced process as delineated in the approved ITU-R documents by the established deadlines.
