To: Roger B. Marks, Chair, IEEE 802.16

Dear Dr. Roger B. Marks,

We appreciate your liaison response with the updated RIT proposals. And we also appreciate your participation in the joint ARIB-IEEE-TTA leadership meeting in Jeju on 31 August. By the constructive discussion in that meeting, we have reached mutual understanding and agreement on our future activities toward ITU-R submission.

As we had notified it in the previous liaison statements, TTA PG702 has been preparing for the IMT-Advanced candidate proposal on the basis of the materials that had been produced by IEEE802.16. For a better response during ITU-R consensus building, we will submit the same technical content as which IEEE802.16 will submit.

TTA PG702 had set the dates for our review and approval process as follows. TTA PG702 will complete the draft of the submission packages around the mid-September and will circulate within TTA PG702 members from September 24 to September 28. We are expecting to complete the approval process in TTA TC7 by the end of September.

Meanwhile, we are looking forward to hearing any update of ITU-R submission packages from IEEE 802.16 #63.5 meeting as soon as possible. It will give us the opportunity to update our submission packages during our approval process in time.

Sincerely yours,

Chung G. Kang , Chair, TTA PG702

CC: Jung Je Son, Vice Chair and Liaison officer to IEEE 802.16, TTA PG702
CC: Paul Nikolich, Chair of the IEEE 802 LAN/MAN Standards Committee
