To: Dr. Roger B. Marks, Chair, IEEE 802.16 Working Group
Subject: Re: Liaison statement of 24 September concerning IMT-Advanced submission
Date: 12 November 2009

Dear Dr. Marks,

Thank you for sending us your final IMT-Advanced submission package as promised, which could lead to a successful IMT-Advanced proposal submission based on the IEEE 802.16m technology from Japan to the 6th meeting of the ITU-R Working Party 5D (WP 5D).

We expect that the IEEE 802.16 Working Group (WG) will take an initiative on the IEEE 802.16 RIT proposal for IMT-Advanced for the rest of the IMT-Advanced process defined by the ITU-R WP 5D, but we are happy to be involved in that process to support your organization because Japan is one of the proponents of the IEEE Technology for IMT-Advanced.

Since we do not have a clear plan for the rest of the IMT-Advanced process, it would be appreciated if you could share with us IEEE 802.16 WG's detailed plan to be made at your Session #64 as well as your expectations for ARIB's activities.

Please feel free to contact our liaison representative if you have any questions or need further information.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Seizo Onoe', is written over a light blue horizontal line.

Seizo Onoe

Chairman, IMT-Advanced Subcommittee
