To: Dr. Roger B Marks, r.b.marks@ieee.org Chair, IEEE802.16 Working Group

Re: Follow-up Response to Liaison announcing Draft WiMAX Forum Machine to Machine Communications Requirement Spec.

Service Provider Working Group (SPWG) at the WiMAX Forum would like to thank IEEE802.16 Working Group for the Liaison Statement (LS) dated 17th March 2011 on the subject of Follow-up Response to Liaison announcing Draft WiMAX Forum Machine to Machine Communications Requirement Spec. SPWG appreciate the offer to review and comment on your current System Requirement Documents on 802.16n and 802.16p.

System Requirement Documents had been made available to SPWG members for review. SPWG recognizes that these documents are under development and SPWG would be appreciated to review this again when the documents are completed. Meanwhile, SPWG has no comment at this time.

Best regards

Mr. Chungwoo Hwang, cwhwang@kt.com, SPWG Interim-Chair, WiMAX Forum
